

## WISEdata Portal Upgrade Overview

### Version 3.0

Welcome to the WISEdata Portal, version 3.0! With this update, the WISEdata Portal gets a whole new user interface, as well as improvements to data quality reporting and new data elements to make sure student information can be submitted as accurately as possible. This document will give you a brief overview of some of the changes with version 3.0, but isn't intended to be a complete guide to the new WISEdata Portal.

### Look and Feel

Right away, you'll notice that the WISEdata Portal has a whole new look, with easier-to-read statistics for error and warning rates and unacknowledged warnings.

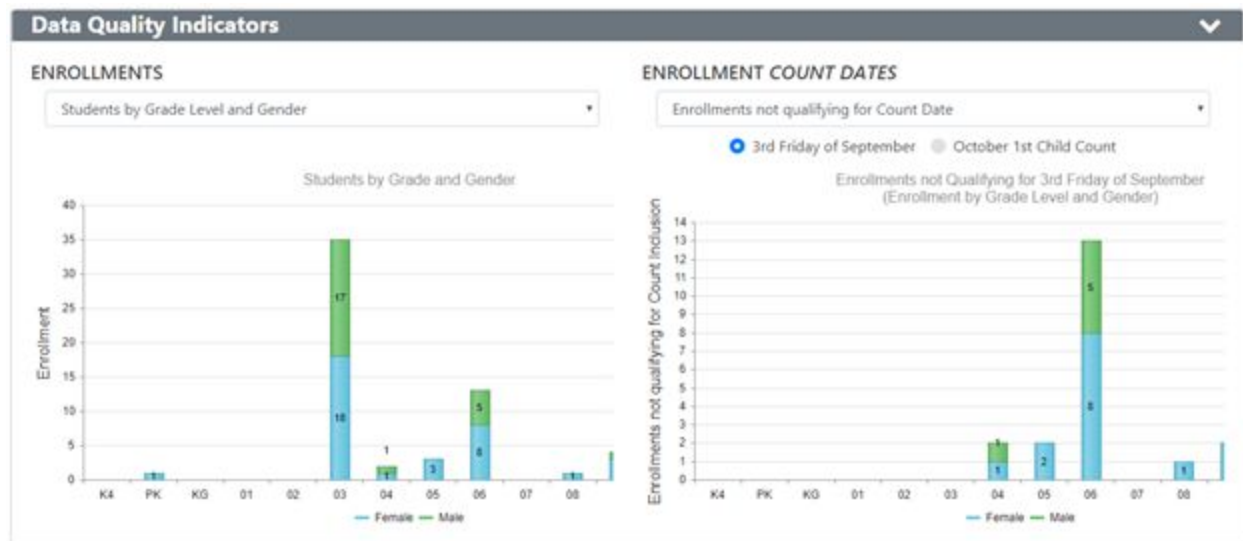

The screenshot displays the WISEdataPortal interface. The top navigation bar includes links for Home, Data Quality, Validation Messages, Student Search, School Roster Details, Exports, and Expected Transfers. The main content area is divided into three sections:

- Filters:** Includes dropdowns for School Year (2019 - 2020), School Type (All School Types), and Schools (All Schools). A Reset button is also present.
- Validation Message Summary:** Displays two summary boxes: "ERRORS" (0) and "WARNINGS - UNACKNOWLEDGED" (0). It also shows a large "0.0%" for "% STUDENTS WITH ERRORS OR UNACKNOWLEDGED WARNINGS" and a "VALIDATION LAST RUN" timestamp of 1/28/2019 9:39:19 AM.
- Data Quality Indicators:** Includes dropdowns for "ENROLLMENTS" (Students by Grade Level and Gender) and "ENROLLMENT COUNT DATES" (3rd Friday of September).

## Data Quality Indicators

View each data quality indicator as a separate tile in the Data Quality Indicators section, with drop-down menus to let you organize information by various metrics. Stacked bar graphs make it easier to see how your data adds up, as well.

## Report Non-Primary Enrollments

You can now submit data for students who are enrolled in your district as a non-primary student, such as parent-placed private school students or students taking only a couple of courses. In the new [Enrollment Type](#) data element, specify whether a student is enrolled at your district as a primary student, or as one of the non-primary enrollment options.

Note that Choice Schools will always submit students as primary.

Enrollments										▼
	Enroll Date	Exit Date	District / Agency	School	Primary/School	Enrollment Type	Grade Level	Included in 3rd Fri Sept count	Included in Oct 1st Child Count	Overlapping Enrollment
▶	07/01/2019	06/30/2020	<a href="#">Sun Prairie Area School District</a>	Horizon El	False	Parent Placed Private	04	False	False	Not Set
▶	07/08/2019	07/08/2019	<a href="#">Our Lady of the Lake Catholic</a>	Our Lady of the Lake Catholic	True	Primary	01	Not Set	Not Set	Not Set

## Updated Student Demographics

Student demographic information is easier to read, with clear headers for each table and indicators for the source of the data, whether WISEdata or WISEid. As before, you can click the name of a data element to learn more about it on the DPI website.

Student

Demographics

Create Date: 7/22/2019 8:31:36 AM

Last Modified Date: 7/22/2019 8:31:36 AM

Data Element	WISEdata	WISEid

Visas	• F1 - Foreign Student Visa	WISEid Race	American Indian or Alaska Native

## School-Level Demographics

Many student demographics, such as languages and economic disadvantaged status, can now be recorded on a per-school basis, so you don't have to contact and work with other schools to confirm changes to a student's demographic information.

Demographics - School Level												
	District / Agency	School	Gender	Hispanic Latino	Races	DPI Race/Ethnicity	Disabilities by order	DPI Reporting Disability	DPI Economic Disadvantaged	Limited English Proficiency	Languages	Characteristics
▶	<a href="#">Sun Prairie Area School District</a>	Horizon El	Male	True	AsianWhite	A H W		H		Fully English proficient, never ELL/LEP	English : Native language	If student meets the definition as immigrant under Title III.
